PROCEDURE FOR PUMPING AND INSPECTING ON – LOT SEWER SYSTEMS

1. The Township will send you a letter indicating this is your calendar year to have the system pumped and inspected. This will happen every three years.
2. Please contact your hauler and have the hauler contact Jeffrey Warmkessel to schedule an appointment for the inspection. Mr. Warmkessel, Sewer Enforcement Officer at wgei@juno.com or (610) 987-0063.
3. The hauler will give you a Manifest.
4. Submit your inspection fee payment of \$200 per tank prior to inspection and pumping of the tank. After your system is pumped out bring the manifest to the Customer Service at the Township Municipal building at 210 George Street so that a copy can be provide to the DEP.

DO NOT allow the hauler to pump the system if the Sewer Enforcement Officer is not present to inspect the system. In the event you do, the system will be required to be pumped again so that the inspection can take place.
